High Fence Remote Monitoring of Your Investments

Collins Communications offers proven wireless video technology to monitor your hunting livestock investments. Monitor green fields, fences, lodges, gates, and all areas of interest.

****WATCH HARVEST AS THEY OCCUR****

You're no longer restricted by traditional video surveillance systems to keep an eye on your investments. Collins now offers the most unique video system for High Fence Owners.

This is the first system of its kind to offer a solution that can cover thousands of acres of high fence hunting land and send streaming video back to a central location. If high speed Internet access is available at your camp you can monitor your assets remotely.

Satisfaction Guaranteed: From the inception of Collins Communications our policy has been and will continue to be, "If you're not satisfied you don't pay." We stand behind our products and service 100%.
